Why use ApprovalMax Pay

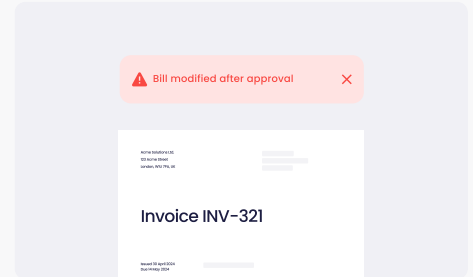

Save time

Logging into multiple bank portals and reconciling payments across different accounts is time-consuming. ApprovalMax Pay streamlines payment management by eliminating tedious steps and automatically syncing with Xero, making reconciliation a breeze.

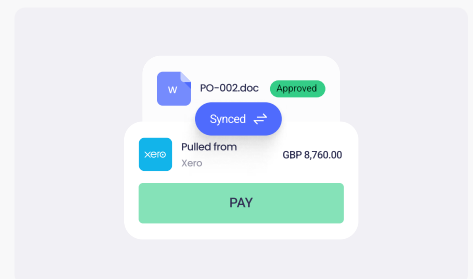

Visibility and control

With ApprovalMax Pay, you control who can access payment details and keep a full record of changes. ApprovalMax's multi-step approval workflows ensure every payment goes through the right verification, giving you confidence and clarity.

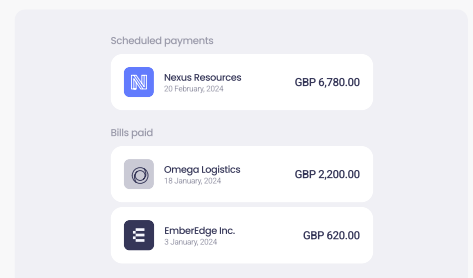

Integrates with Xero

Manually updating and reconciling payments in your accounting software is inefficient. ApprovalMax Pay automatically syncs with Xero, reconciling all bills in one click and updates are made to your general ledger at the same time.

Reduce errors with automation

Manual data entry during payment execution often leads to errors. Our system removes the need for manual input, reducing the risk of mistakes. Employees can make payments without direct bank access, ensuring secure, accurate, and logged transactions.
