ApprovalMax **CIN7**

ApprovalMax + Cin7 Core

For Xero users

Get your approval automation and financial controls sorted by integrating ApprovalMax with Cin7 Core.

Quickly set-up approval workflows

Approve everything in **one place**

Keep approvers **out of Cin7 Core**

**Tighten** financial controls

Prevent fraud

ApprovalMax is a cloud-based platform that integrates with Cin7 Core to enhance internal financial controls, security, and efficiency. It brings finance and procurement teams together by **automating approval workflows** for inventory related purchase orders and invoices.

Accounts payable and finance teams can use ApprovalMax to **set-up automated approval workflows that pull purchase orders and invoices directly from Cin7 Core and Xero**, then send them to relevant stakeholders for approval when certain conditions are met.

> "This has filled a hole in the expense management area in inventory which has been quite weak. ApprovalMax being the best approval tool in the app ecosystem, is expanding again and solving a problem."

✓ Approve everything in the one place

When Xero users connect ApprovalMax with Cin7 Core, all approvals are requested, granted, and stored in one place which makes information easier to find. This significantly improves accounts payable organisation, processes, and auditing capabilities.
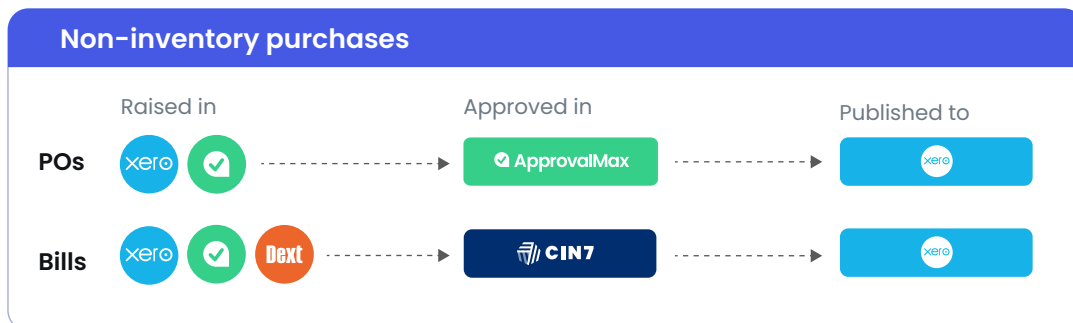

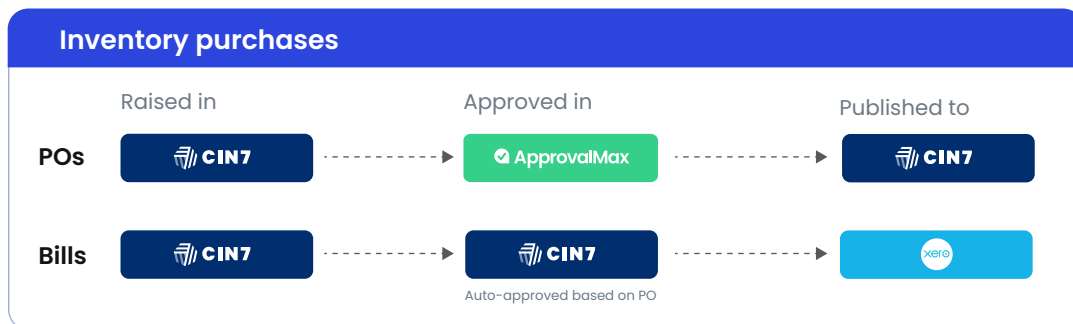

✓ Customise workflows to suit any situation

Approval workflows can be created to suit unique business requirements for inventory related purchase orders and invoices. Workflows can be set up with multiple stages (approvers) and conditions specific to Cin7 Core such as product type, category, or inventory account.

✓ Keep approvers out of Cin7 Core and Xero

Improve data security and save on user licenses. With the ApprovalMax integration, you can keep your decision makers out of Xero and Cin7 Core. ApprovalMax is the only platform they need to view and approve inventory related bills and purchase orders.

✓ Tighten your financial controls from one point

ApprovalMax offers more than just approval functionality. When connected to Cin7 Core, it allows you to tighten your financial controls by adding in sophisticated processes that can help mitigate fraud, improve cash flow, and audit who is approving bills and purchase orders.
